Wall Mounted Clips

The Flamco range of wall mounted clips is designed for installing threaded tubes, sprinkler pipes, thin wall steel tubes and copper pipes. These one piece clips are ideal for high loads. They can be fitted easily and the BMA/BMK fastening is concealed within the clip. BMA clips are supplied complete with sound absorbing rubber lining.

FOR ALL TYPES OF PIPE

BMA wall clips are designed for mounting threaded pipes, sprinkler pipes, thin walled steel pipes and copper pipes to the wall and are made up of three parts, namely the one-piece clip, the sleeve, and a nut. The sleeve has three characteristics. The leading edge is flared to permit easy location. The trailing edge is domed and acts as a travel stop for the nut. Finally, its overall conical shape ensure secure fixture. Thanks to these technical features, BMA clips are very easy to mount correctly.

- One-piece clip with fixing materials.
- The fixing is covered by the clip so that it is not visible.
- Rigid fastening.
- Conical sleeve with locating edge for firm clamping.
- BMA wall clips are compatible with pipe sizes as per DIN 2448 and EN 1057.
- Noise-suppressing rubber strip: 20 dB(A).

To achieve maximum sound suppression do not overload the fitting.

- Safety margin for min. breaking load (V) = 3
- Clip: Sendzimir zinc-plated.
- Sleeve, nut and wood screw: Electrolytically zinc-plated.

BMA-HK Wall Clips

- **With short wood screw and plastic plug.**

- Plug sizes:
BMA 8 : Ø 10 x 50
BMA 10 : Ø 12 x 60

- Wood screws:
BMA 8: HO 8 x 80
BMA 10: HO 10 x 90

Type	Ø Pipe		Connection	Max. working load [N]	Max. working load [N] 20 dB(A)	Strip dimensions [mm]	Torx		Order Code

* KIWA certified certificate BRL-K 627/01 for use with potable water.

FOR COPPER PIPES

BMK wall clips are designed for mounting copper pipes to the wall and are made up of three parts, namely the one-piece clip, the sleeve, and a nut. The sleeve has three characteristics. The leading edge is flared to permit easy location. The trailing edge is domed and acts as a travel stop for the nut. Finally, its overall conical shape ensure secure fixture. Thanks to these technical features, BM clips are very easy to mount correctly.

- One-piece clip with fixing materials.
- The fixing is covered by the clip so that it is not visible.
- Rigid fastening.
- Conical sleeve with locating edge for firm clamping.
- BM wall clips are compatible with pipe sizes as per EN 1057.
- Safety margin for min. breaking load (V) = 3.
- Clip: Copper.
- Sleeve, nut and wood screw: Electrolytically zinc-plated.
